

**Product Data: HALF TIME™ (No Mixing Required)
ATHLETIC FIELD MARKING PAINT**

"As Durable as the Hills of Old New England"

DESCRIPTION: Half Time is specifically formulated for use on grass athletic playing fields for sports such as football, soccer, field hockey, lacrosse, etc. Half Time™ is supplied ready to use, no dilution required.

APPLICATION: Air and surface temperature should be above freezing. Dry surface is ideal, but it may be applied to a slightly damp surface (longer dry time). Spraying is the preferred method of application to achieve clean sharp lines. Most conventional line marking machines will do the job. As with any paint to be sprayed straining is highly recommended (latex skins do not re-dissolve when mixed).

THINNING & CLEANING: If thinning of paint is desired, never exceed 1 quart of water to 5 gallons of paint, regardless of whether or not paint is thinned, stir to a smooth uniform consistency. For clean up water is usually sufficient on a daily basis. For a thorough cleaning, soap and warm water is recommended

SHELF LIFE: 12 months minimum based on unopened container stored @ 77° F

STORAGE: Store in a cool dry area. **KEEP FROM FREEZING**
